ELSIE VANDEGRIFT BENEDICT **ENGAGED FOR LECTURE TOUR**

Mrs. Elsie Vandegrift Benedict, for-mer Denver newspaper woman and for the past four years field organizer for the National Woman Suffrage associathe National Woman Suffrage associa-tion, has accepted an offer from a lyceum bureau to tour the Pacific coast and give a course of lectures on "What the World War Will Win for Women."

When asked why she was giving up suffrage work for war work, she said: "Because suffrage for all the women of the United States is practically here. The last doubt about the passage of the federal suffrage amendment by the United States senate was wiped out of the minds of suffragists when the English parliament granted full suffrage to all the women of England enfranchising 6,000,000 women in one day. France is preparing to grant it soon, Russia granted it last summer and Canada a year ago."

Mrs. Benedict will start on her Western tour in a few weeks.
